

Punjab University College of Information Technology University of the Punjab

TO WHOM IT MAY CONCERN

I am pleased to write this letter of recommendation for Mr. Muhammad Tayyab Saeed, who completed his BS in Information Technology from Punjab University College of Information Technology (PUCIT), New Campus, University of the Punjab, Lahore, Pakistan.

I had the privilege of teaching him in the courses *Introduction to Information and Communication Technologies*, and *Data Structures and Algorithms*. Throughout these courses, he consistently demonstrated diligence, a strong work ethic, and commendable academic performance.

What particularly impressed me was his respectful and cooperative demeanour, which enabled him to work effectively in team settings. He always listened attentively and valued others' opinions, even when they differed from his own.

In addition to his academic excellence, he also served as a Teaching Assistant for *Object-Oriented Programming* and *Data Structures and Algorithms*. In this role, he assisted with lab conduction, as well as the grading of quizzes and assignments. He carried out his responsibilities with great dedication and enthusiasm.

Based on my observations, I wholeheartedly recommend him as a strong candidate for the degree program at your esteemed university. I am confident that he will excel in both coursework and research.

I wish him the very best in all his future endeavours.

.
